WHO IS LEOPOLD?

Leopold George Duncan Albert was the eighth child and fourth son of Queen Victoria and Prince Albert. He was the Duke of Albany, damnit!

It is a fact that it was proposed to name Regina after the Duke and call it Leopold, Saskatchewan. Of course, that never happened and in 1882 Leo's sister Princess Louise named it Regina (Latin for queen), after her mother, the Queen.

The site of Leopold Crescent was also once occupied by a sulky half mile race track and the first location for the Regina golf club which started in 1897 and still exists today.

We named our first little joint in honour of The Duke and the quasi famous street that is a stones throw away from the original Leopold's Tavern location.

To this, we raise a pint to the legends of yesteryear and the history that is about to unfold...
